

Milnthorpe Light Festival 2023

KEY invited all local young people to join in with a light festival in October half term. This event is becoming a KEY tradition! And this year, we enlisted the help of local art project <https://www.loveartworkshops.com> Young people attended a fun packed afternoon making lanterns, cooking a spooky recipe, and carving pumpkins.

Everyone brought their lanterns and pumpkins to the Light Festival for the judging, and hot chocolate! St Thomas' church kindly let us use their front steps again with our local Parish magazine donating prizes.
